Condensation Silicone (C-Silicone)

Soft Putty Material

Müller-omicron

WEB ONLY PRICE
£18.25

Alphasil Perfect Soft Putty is a soft putty material that with its optimized filters simplifies the initial mixing and makes perfect the homogeneity of the mixing results.

Flavour: Light Mint

Colour: White

Working time : 1 min 45 sec

Time within oral cavity : 4 min

Final Hardness: Shore A60

Packing: Each box contains 1 x 900 ml Tub

Soft Putty (900ml)	MUL12100	£19.25
--------------------	----------	--------

Activator Paste

Müller-omicron

Alphasil Activator paste, DBTL Free

Packing: Each box contains 1 x 60ml tube of activator paste.

Activator Paste (60ml)	MUL12300	£11.95
------------------------	----------	--------

Medium & Light Bodied Correction Material

Müller-omicron

Alphasil Perfect Light/Medium is a Light / Medium bodied correction material. It has very low viscosity, very thin flow, with pronounced thixotropy, making it suitable for the exact reproduction of delicate oral anatomy and preparations, hydrophilic.

Colour: Light is Dark Blue and Medium is Blue

Working time : 1 min. 45 sec

Time within oral cavity : 4 min

Packing: Each box contains 1 x 150ml tube of light or medium bodied correction material.

Light Bodied (150ml)	MUL12201	£12.95
Medium Bodied (150ml)	MUL12202	£12.95

Speedex Putty Material

Coltene Whaledent

WEB ONLY PRICE
£23.75

Speedex Putty is a Polysiloxane (condensation type) impression material with a very high viscosity and fast 'snapset' for sharper definition. Superior dimensional stability allows models to be cast up to 7 days after impression taking. Adjustable setting time by volume of activator.

Working time: 1 minute 30 seconds

Setting time: 3 minutes (in the mouth)

Colour: Light Grey

Packing: Each box contains 1 x 910ml Tub.

Putty (910ml)	COL12110	£24.95
---------------	----------	--------

Speedex Wash Light Body

Coltene Whaledent

WEB ONLY PRICE
£9.45

Speedex Wash Light Body is a Polysiloxane (condensation type) impression material with a very high viscosity and fast 'snapset' for sharper definition. Superior dimensional stability allows models to be cast up to 7 days after impression taking. Adjustable setting time by volume of activator.

Working time: 1 minute 30 seconds

Setting time: 3 minutes (in the mouth)

Colour: Dark Blue

Packing: Each box contains 1 x 140ml Tube.

Wash Light Body (140ml)	COL12210	£11.95
-------------------------	----------	--------

Speedex Universal Activator Paste

Coltene Whaledent

Speedex Universal Activator Paste for use with Speedex's Putty/Wash Light Body/Wash Medium Body.

Colour: Green

Packing: Each pack contains 1 x 60ml Tube.

Universal Activator (60ml)	COL12305	£13.95
----------------------------	----------	--------

Addition Silicone (A-Silicone)

President Fast Putty
Coltene Whaledent

President Fast Putty is a Polyvinylsiloxane high precision impression material with perfect reproduction of detail and long lasting dimensional stability it is suitable for all impression techniques.

Working time: 1 minute 55 sec

Setting time: 2 minutes (in the mouth)

Colour: Brown Base & Light Grey Catalyst

Packing: Each pack contains 300ml Base + 300ml Catalyst

Fast Putty (600ml)	COL12411	£56.75
--------------------	----------	--------

President Regular Body Wash
Coltene Whaledent

President Regular Body Wash Tube is an A-Silicone based impression material of medium viscosity suitable for impression material for the single-phase impression technique, wash material for the putty-wash impression technique, the double arch impression technique and as impression material for relining. Available in Regular and Light consistency.

Working time: 1 minute 45 sec

Setting time: 2 minutes (in the mouth)

Colour: Brown Base & Light Grey Catalyst

Packing: Each pack contains 53ml Base + 53ml Catalyst

Regular Body Wash (106ml)	COL12412	£29.95
Light Body Wash (106ml)	COL12413	£29.95

President Plus
Coltene Whaledent

President Plus is a Polyvinylsiloxane surface activated impression material with low viscosity for high precision impressions. Available in light or Regular Body.

Packing: Each pack contains 50ml Base + 50ml Catalyst

Regular Body (100ml)	COL12420	£38.95
Light Body (100ml)	COL12421	£38.95

Elite HD+ (High Detail) Putty Soft
Zhermack Sps

Elite HD+ Putty Soft is an A-silicone precision impression material. Ideal for fixed prostheses. Suggested technique: two-stage with standard trays. 1:1 mixing ratio. Available in Normal and Fast Settings.

- High deformation strength
- Excellent elastic recovery
- High dimensional stability
- 3-year shelf life
- Safe disinfection with recommended disinfectant solution or spray

Working time: 1 minute 30 seconds (Fast Set) & 2 minutes (Normal Set)

Setting time (in mouth): 2 minutes 30 seconds (Fast Set) 3 minutes 30 seconds (Normal Set)

Colour: Yellow (Fast Set) & Orange (Normal Set)

Packing: Each pack contains 250ml Base + 250ml Catalyst and 2 measuring scoops.

Putty Normal Set (500ml)	ZHE12413	£42.95
Putty Fast Set (500ml)	ZHE12414	£42.95

Addition Silicone (Cont'd)

Elite HD+ Light Body Fast Setting
Zhermack Sps

Zhermack Elite HD+ Light Fast Setting is a hydrophilic very low viscosity A-Silicone with light body consistency for fixed prostheses. Suggested technique is the two stage.

- Maximum precision in detail reproduction
- High tear strength
- Excellent elastic recovery
- High dimensional stability
- Opaque pigments for improved detail reading
- Possibility of casting the model immediately after disinfection
- 3-year shelf life
- Safe disinfection with recommended disinfectants

Characteristics:

- 1:1 Mixing ratio
- Hydrophilic and Biocompatible
- Ideal working time/setting time ratio (Snap-set effect)
- Long working time
- Shorter permanence in the oral cavity

Colour: Green

Working time: 1 minute 30 seconds

Setting time (in mouth): 2 minutes 30 seconds

Elastic Recovery: >99.5%

Linear Dimensional Variation after 24 hours: <0.20%

Hardness (Shore A): 45

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus 12 Mixing Tips (small/yellow)

Light Body Fast Set 100ml ZHE12315 **£32.25**

Elite HD+ Super Light Body Fast Setting
Zhermack Sps

Zhermack Elite HD+ Super Light Fast Setting is a hydrophilic very low viscosity A-Silicone with light body consistency for fixed prostheses. Suggested technique is the two stage.

- Maximum precision in detail reproduction
- High tear strength
- Excellent elastic recovery
- High dimensional stability
- Opaque pigments for improved detail reading
- Possibility of casting the model immediately after disinfection
- 3-year shelf life
- Safe disinfection with recommended disinfectants

Characteristics:

- 1:1 Mixing ratio
- Hydrophilic and Biocompatible
- Ideal working time/setting time ratio (Snap-set effect)
- Long working time
- Shorter permanence in the oral cavity

Colour: Lilac

Working time: 1 minute 30 seconds

Setting time (in mouth): 2 minutes 30 seconds

Elastic Recovery: >99.5%

Linear Dimensional Variation after 24 hours: <0.20%

Hardness (Shore A): 45

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus 12 Mixing Tips (small/yellow)

Super Light Body Fast Set 100ml ZHE12314 **£32.25**

Addition Silicone (Cont'd)

Affinis Soft Putty (Fast)
Coltene

A-silicone impression material. Combines a highly active surfactant system and a contour 'tracking' consistency which ensures no air entrapment or margin distortions. Used for all crown & bridge, inlay & onlay and partial dentures. Suggested technique: two-stage with standard trays. 1:1 mixing ratio.

- Easy to mix
- Firmness like a Heavybody
- Harmonised consistency of tray and wash mater
- Time saving (short mixing and oral setting)
- Perfect impression without voids and margin distortion.

Colour: Golden Brown (brown base, light grey catalyst)

Working time: 1 minute 5 seconds

Setting time: 1 minute 50 seconds (in the mouth)

Hardness (Shore A): 62

Packing: Each box contains 300ml Base + 300ml Catalyst and spoons

Putty Fast (600ml)	COL12440	£57.95
--------------------	----------	--------

Affinis Light Body (Fast)
Coltene

Silicone impression material with an automix cartridge. Light body correction material for double impression and wash technique, impression material for rebasing. correction material for double impressions or wash technique, check bite sectional impressions.

- Excellent flow properties in a moist environment
- Ideal working time, optimal intraoral setting time
- Excellent readability
- Minimizes the risk of air entrapments and marginal distortions
- Perfect reproduction of the marginal contours
- First-ever autoclavable impressions
- Maximum precision during model fabrication

Colour: Green

Working time: 50 seconds

Setting time (in mouth): 1 minutes 20 seconds

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus disposable mixing tips.

Light Body (100ml)	COL12441	£38.95
--------------------	----------	--------

Vestige Putty (Fast)
Trayart

WEB ONLY PRICE
£27.75

Vestige Putty is an additional polymerisation silicone (A-silicone) impression material. Suitable for fixed prostheses, crowns, bridges, inlays, onlays, partial dentures, impants, and impressions for temporary and relining dentures. Suggested technique: two-stage with standard trays. 1:1 mixing ratio.

- Precision reproduction of the details
- Easy to mix, smooth and remove from mouth
- No Bubble and No Greasy
- Excellent elastic recovery and high deformation strength
- Scannable (compatible with all CAD/CAM)
- Exceptional dimensional stability
- Safe disinfection with recommended disinfectant solution or spray.

Colour: Purple

Working time: 1 minute 30 seconds

Setting time (in mouth): 2 minutes 30 seconds

Packing: Each box contains 300ml Base + 300ml Catalyst

Putty Fast (600ml)	TRA12490	£29.75
--------------------	----------	--------

Vestige Light Body (Fast)
Trayart

Vestige Light Body Fast is a hydrophilic low viscosity A-Silicone impression material with light body consistency for fixed prostheses. Used for all crown & bridge, inlay & onlay and partial dentures. Suggested technique: two-stage with standard trays. 1:1 mixing ratio.

- Precision reproduction of the details
- Highly hydrophilic and thixotropic
- Excellent elastic recovery and high deformation strength
- Scannable (compatible with all CAD/CAM)
- Exceptional dimensional stability & resistance to tearing
- Safe disinfection with recommended disinfectant solution or spray.

Colour: Blue

Working time: 1 minute 30 seconds

Setting time (in mouth): 2 minutes 30 seconds

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus disposable mixing tips

Light Body Fast (100ml)	TRA12491	£18.95
-------------------------	----------	--------

Addition Silicone (Cont'd)

Affinis Regular Body (Fast) Coltene

Silicone impression material with an automix cartridge. Regular for monophasic impression and rebasing, correction material for double impressions or wash technique, check bite sectional impressions.

- Excellent flow properties in a moist environment
- Ideal working time, optimal intraoral setting time
- Excellent readability
- Minimizes the risk of air entrapments and marginal distortions
- Perfect reproduction of the marginal contours
- First-ever autoclavable impressions
- Maximum precision during model fabrication

Colour: Light Blue

Working time: 50 seconds

Setting time (in mouth): 1 minutes 20 seconds

Packing: Each box contains 2 x 50ml cartridges (Base & Catalyst) plus disposable mixing tips.

Regular Body Fast 100ml COL12442 £38.95

Kemsil Duplicating Silicone Associated Dental Products

Kemsil Duplicating silicone is an easy to use addition-cured duplicating system with added wetting agent. It sets in just 5 minutes, but can be speeded up by simply warming the mixture.

- Quick and clean
- No messy activator
- Easy to measure and mix

Colour: Light blue

Setting time: 5 minutes can be speed up by warming

Hardness (Shore A): 20

Packing: Each pack contains 2kg (1kg base + 1kg catalyst).

Duplicating Silicone (2kg) KEM27485 £57.95

Lab Putty

Lab-Putty & Activator Coltene

Lab-Putty is an outstanding Polysiloxane laboratory modelling product material with 62-67 Shore A for model repairs, isolation and denture heat protection, keys and block outs and matrixes for formation of general occlusion and functional patterns.

- Easily mixed & easily removed
- Soft activator
- Excellent elasticity

Packing: Each pack contains 1.35kg/900ml base + 40ml activator + dosing spoon.

Putty & Activator (1.35kg + 40ml) COL27486 £27.75

Lab-Putty Base Coltene

Lab-Putty is an outstanding Polysiloxane laboratory modelling product material with 62-67 Shore A for model repairs, isolation and denture heat protection, keys and block outs and matrixes for formation of general occlusion and functional patterns.

- Easily mixed & easily removed
- Soft activator
- Excellent elasticity

Packing: Each tub contains 7.5kg/5000m + dosing spoons.

Lab-Putty Base (1 x 7.5kg) COL27487 £99.75

Activator Catalyst for Lab Putty Coltene

Catalyst for Lab Putty.

Packing: Each tube contains 40ml.

Activator (1 x 40ml) COL27488 £9.95

Lab Putty (Cont'd)

Kemsil Precise Lab Putty
Associated Dental Products

Kemsil Precise is a revolutionary new easy to use addition-cured lab putty. Dental Technicians already appreciate how versatile and useful lab putty can be. It has been made quick and easy to use by offering the latest technology in a simple way. You simply mix equal parts of Kemsil A + B to produce probably the best lab putty. It can be used for production of copy denture moulds, processing denture repairs, construction of partial dentures, cold-curing CoCr saddles and implant work.

- Quick and clean
- No messy activator
- Easy to measure and mix
- Greater accuracy with up to 70% less shrinkage than conventional condensation-cured putties

Colour: Light blue base and light grey catalyst

Setting time: 5 minutes

Hardness (Shore A): 90

Packing: Each pack contains 1.5kg or 4.5kg + 2 measuring scoops.

Lab Putty (1.5kg)	KEM27480	£32.75
Lab Putty (4.5kg)	KEM27481	£66.75

Duplicating Gels

Meadway Duplicating Gel
MR Dental

Reversible Agar Hydrocolloid Duplicating Gel.

- Melt Point 92 °C
- Pour Point between 39°C to 45°C

Packing: Each tub contains 5kg.

Duplicating Gel (5kg)	MRD27214	£69.75
-----------------------	----------	--------

Meadway Plas Gel
MR Dental

Reversible Agar Hydrocolloid Duplicating Gel for plaster and investments. Alum wash is not required.

- Melt Point 92 °C
- Pour Point between 39°C to 45°C

Packing: Each tub contains 5kg.

Duplicating Gel (5kg)	MRD27215	£69.75

Disinfectant Surface Wipes

Continu 2-in-1 Surface Cleaning Wipes Nuview

Alcohol Free surface cleaner which offers a 2 in 1 solution that removes dirt or grease whilst disinfecting the treated area to ensure surfaces are clean as well as decontaminated. Ideal for all surfaces, including work surfaces and plastics. Active against bacteria, fungi, viruses (e.g. MRSA including PVL, C.Diff, E.Coli, Salmonella, HIV, Hepatitis B, TB, Legionella, Influenza A and many others) therefore effective to EN test standards for fungi, bacteria & viruses.

- Complies with the HTM01-05 requirements to clean surfaces with a suitable detergent.
- Water-based solution that is much safer and more environmentally friendly than traditional Alcohol or bleach based disinfection products.
- Independently tested and significantly exceeds the requirements of British Standards EN1276 and EN1650.
- Kills more than 99.999% of harmful micro-organisms in less than 30 seconds.
- Has the same chemical hazard rating as water, therefore very safe on skin.

Packing: Each Tub contains 200 pcs and each Refill Bag contains 200 pcs.

Tub of 200 Wipes	CON15120	£5.75
Refill bag of 200 Wipes	CON15121	£4.90

Wax Bite Rim Blocks (Straight)
Associated Dental Products

Time-saving occlusal rims for the dentist or technician. The straight blocks are a specially large size with a curved base to fit the model. The blocks can be easily adapted to shape and carved with a wax knife. Using preformed blocks prevents the risk of porosity which may occur when sheets of wax are hand-rolled. The pre-curved blocks are designed to represent the tooth position and are even quicker to use. Warm before use.

Packing: Each box contains 75pieces.

Pink (75pcs)	KEM12775	£11.75
--------------	----------	--------

Wax Bite Rim Blocks (Curved)
Associated Dental Products

Time-saving occlusal rims for the dentist or technician. The pre-shaped curved blocks have a specially curved base to fit the model. The blocks can be easily adapted to shape and carved with a wax knife. Using preformed blocks prevents the risk of porosity which may occur when sheets of wax are hand-rolled. The pre-curved blocks are designed to represent the tooth position and are even quicker to use.

Yellow (500g)	KEM27394	£23.75
Red (70g)	KEM27395	£4.95
Red (500g)	KEM27396	£23.75

Beading Wax Associated Dental Products

Beading Wax is a soft wax ideal for dentists to use to bead round the edge of a functional impression prior to casting. This technique improves the accuracy of the model by including the peripheral edge and therefore ensures the final denture will have a good peripheral seal.

Size: 300mm x 7mm x 3.5mm

Colour: Dark Red

Packing: Each box contains 75 strips.

Carving Blocks (75 pieces)	KEM27385	£9.75
----------------------------	----------	-------

Boxing-In Wax Associated Dental Products

This wax adheres to impression materials and can be used by dentists or technicians to 'box-in' impressions and contain the plaster when pouring a model. Consistency soft and pliable.

Size: Thin (300mm x 40mm x 1.5mm)

Colour: Deep Red

Packing: Each box of thin contains 30 pieces and each box of thick contains 18 pieces.

Thin (30 pieces)	KEM27386	£11.95
------------------	----------	--------

Wax Solvant

Meadway Wax Solvent MR Dental

Meadway Wax Solvent is a must in the boiling-out process as it ensures a perfect bond between the teeth and the denture base. It eliminates the need to drill teeth and dissolves wax from plaster surfaces.

Packing: Each tin contains 1 litre or 5 litres.

Wax Solvent (1 litre)	MRD27691	£41.75
Wax Solvent (5 litres)	MRD27692	£165.75

Light-Cure Tray Resin Wafers

Eazipan LC Light-Cured Tray Resin Wafers Vericom

Eazipan LC is a light-cured transparent thixotropic impression tray material in form of coloured plates for precise work for crown, bridge and total prosthetic technique as well as for fabrication of base for bite patterns.

- Cost effective
- Easy handling
- No offensive smell or toxic fumes or waste
- Minimal shrinkage

Colour: Pink

Packing: Each box contains 50 sheets.

Pink (1 x 50 sheets)	VER27655	£28.95
----------------------	----------	--------

Light-Cure Trays Associated Dental Products

Kemdent light-cure special trays allow easy fabrication of custom impression trays. They can be cured quickly under halogen and UVA light. Minimum shrinkage and slump resistant, particularly when forming a handle.

- Easy to use
- Non-sticky and easy to adapt
- Slump Resistant with indefinite working
- Minimal shrinkage

Articulating Paper Forceps

Excalibur Articulating Paper Forceps Novah Enterprises

Articulating Paper Forceps, made from German Stainless Steel. Available in straight or curved profiles.

Size: 15.5 cm

Packing: Each pack contains one piece

Straight (1 piece)	NOV281907	£6.95
Curved (1 piece)	NOV281908	£7.45

Articulators

Plastic Articulators (Flat Type) Novah Enterprises

Flat Type plastic articulators for connection to precast gypsum models. Use low or medium viscosity Cyanoarylate adhesives for connecting to precast gypsum models.

- Easy to use.
- Functional
- Cost effective and economical.

Colour: Black

Packing: Each pack contains 100 pieces.

Articulators (100pcs)	NOV27230	£17.50
-----------------------	----------	--------

Plastic Articulators (Pocket Type) Novah Enterprises

Pocket Type plastic articulators for connection to the die cast twin-tray model systems or other die cast tray systems with similar connection points.

- Easy to use
- Functional
- Cost effective and economical.

Colour: Black

Packing: Each pack contains 100 pieces.

Articulators (100pcs)	NOV27220	£18.75
-----------------------	----------	--------

Adhesives

Procure Cyanoacrylate Adhesive Novah Enterprises

Procure adhesive is a high performance medium viscosity modified Etyl Cyanoacrylate adhesive for fixing precast gypsum models to plastic articulator (articulation) where a fast cure speed is required. It can also be used for Margin sealing (Harden and strengthen surfaces and edges of Gypsum dies and occluding definitions) and Peripheral lines which can also be 'fixed' with Procure. The Activator is used to speed-up bonding process and debonder can be used to remove cured adhesive.

For Articulation; Lightly spray adjoining surfaces with activator and close parts together and run Procure adhesive between.

- Easy to use
- Fast setting
- High strength
- Cost effective and economical.

Colour: Clear

Packing: Each bottle of Adhesive contains 20g. Each spray can of Activator contains 200ml and each bottle of debonder contains 20ml.

Adhesive PC24 (20g)	NOV27231	£2.95
Activator PC790 (200ml)	NOV27232	£6.95
Debonder PC68 (20ml)	NOV27233	£3.55

Die Cast Tray Model System

Die Cast Twin-Tray Model System

Novah Enterprises

The new Die Cast Twin-Tray Model Systems combines both articulation and model production into one single operation. The system is very effective in simplifying and improving the production of models from either "dual-arch" or "single-arch" impressions. It consists of two identical tray receptacles, into which both the prepared and opposing arches are poured and simultaneously articulated without the necessity for a separate glue or plaster mounting operation. The system's articulator is an integral part of the mounting operation which comes pre-assembled and can easily be connected to the back of trays by simply sliding into position (No need for any adhesives or sealers).

The Die Cast Twin-Tray System comprises two trays and one articulator. There are two types of trays available, one without locating straps (Type A) and the other with locating straps (Type B) which ensure complete die stability. The system is also available in its separate components (i.e. Trays, articulators).

Advantages:

- Saves time and simplifies model fabrication
- Offers versatility of model production
- Improves accuracy of pouring "dual-arch" impressions
- Improves working occlusal stability
- Improves case presentation
- Simplifies fabrication of refractory dies
- Increases production
- Cost saving

Features:

- Only one pour per arch
- Simultaneously pour & articulates arches
- Arches articulate exactly as registered
- Extremely clean & professional appearance
- Open tray design

Colour: Clear, Blue and Smoked

Packing:-

Each Twin-Tray system comprises two trays and one articulator.
Each Box of complete systems (Type A or B) contains 50 complete systems (i.e. 100 trays plus 50 articulators).
Each Box of Trays (Types A or B) contains 100 and 250 pieces.
Each box of articulators contains 100 pieces.

Synthetic Polymer Teeth

Windsor Synthetic Polymer Teeth Novah Enterprises

Thanks to the advance technology of the enamel layer wrap around and the heat/cool moulding Windsor has the best quality for all price conscious customers.

- Excellent shade stability
- Minimum water absorption
- Low affinity to plaque
- Fully anatomical occlusal surfaces
- Best value for money.

Colour: Available in all popular shades. Basic true VITA 16 shades (from A1 to D4)

Packing: Each box of Anterior teeth contains 16 sets (Each set consists of 6 teeth)
Each box of Posterior teeth contains 12 sets (Each set consists of 8 teeth)

Mixing Tips

NovahDent Dynamic Mixing Tips

Novah Enterprises

Dynamic mixing tips for use with mixing machines.

- Red core ones are compatible with 4:1 & 10:1 3M Penta machines.
- Yellow core ones are compatible with 5:1 Zhermack II and Dentsply machines.

Colour: Clear with Red or Yellow cores.

Packing: Each pack contains 50 pieces.

Red Core (50pcs)	NOV12620	£25.95
Yellow Core (50pcs)	NOV12621	£25.95

NovahDent Mixing Tips

Novah Enterprises

Yellow mixing tips for use on A-Silicone or bite registration in 1:1 or 1:2 ratio cartridges.

- Colour of cap on cartridge indicates colour of mixing tip required.
- Yellow mixing tips fits Yellow Intra-Oral Tips.

Colour: Yellow

Size: 42mm

Packing: Each pack contains 48 pieces.

Yellow (1 x 48pcs)	NOV12601	£13.95
--------------------	----------	--------

NovahDent Intra-Oral Tips

Novah Enterprises

Intra oral tips for use on A-Silicone or bite registration in 1:1 or 1:2 ratio cartridges. Yellow Intra-Oral Tips fits yellow mixing tips.

Colour: Yellow

Packing: Each pack contains 100 pieces

Yellow Intra-oral Tips (100pcs)	NOV12611	£9.75

Dowel Pins

Standard Dowel Pins

Novah Enterprises

Standard dowel pins manufactured in quality brass and steel with flattened ends and serrated/knurled heads. Types 2, 5, 8, 9 and 12 are all manufactured in Brass.

Packing: Each pack contains 100 pieces.

Type 1; 3cm x 22mm (100pcs)	NOV27610	£3.95
Type 2; 3cm x 22mm (100pcs)	NOV27611	£3.95
Type 3; 3cm x 21.5mm (100pcs)	NOV27612	£3.95
Type 4; 3cm x 20mm (100pcs)	NOV27613	£3.95
Type 5; 3.2cm x 22mm (100pcs)	NOV27614	£3.95
Type 6; 3cm x 22mm (100pcs)	NOV27615	£3.95
Type 7; 2.2cm x 22mm (100pcs)	NOV27616	£3.95
Type 8; 3.2cm x 21mm (100pcs)	NOV27617	£3.95
Type 9; 2.7cm x 15mm (100pcs)	NOV27618	£3.95
Type 10; 2.6cm x 13mm (100pcs)	NOV27619	£3.95

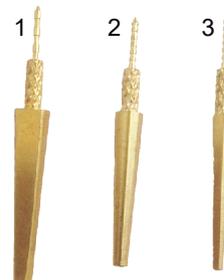

Brass Dowel Pins With Extended Tips

Novah Enterprises

Brass dowel pins with extended tips/ spikes which provides an excellent hold. Ideal for all impression materials.

Size: Type 1 (4cm x 31.3mm)
Type 2 (3.2cm x 28mm)
Type 3 (2.2cm x 28mm)

Packing: Each pack contains 100pcs

Type 1; 4cm x 31.3mm (100pcs)	NOV27640	£4.45
Type 2; 3.2cm x 28mm (100pcs)	NOV27641	£4.45
Type 3; 2.2cm x 28mm (100pcs)	NOV27642	£4.45

Double Dowel Pins With Sleeves

Novah Enterprises

Double dowel pins with sleeves and rubber caps. V-shaped profile enables use in narrow confined spaces, particularly the anterior region. Simple to use with pindex machines. It's added stability eradicates rotation and become tremendously precise and do not distort.

Packing: Each pack contains 100 pieces.

Double pins with sleeves (100pcs)	NOV27650	£14.95
-----------------------------------	----------	--------

Phosphate Bonded C&B Investments

Fujivest Platinum II Investment Material
GC Dental

Carbon-free, phosphate-bonded crown and bridge investment material. For precious metal, semiprecious metal and Pd-based alloys. For speed and conventional heating.

- Optimal fit even at implant suprastructures and long-span bridges
- Easy to steer with an extended expansion range
- Extended working time, improved fluidity
- Very good flow properties
- Devests easily, with reduced risk of damaging castings
- Extremely smooth casting surfaces - exact reproduction of all fine details.

Physical Data: at room temperature of 23°C and 100% mixing liquid: processing time approximately 6min; setting expansion 0.7% in the fast heating technique, 1.7% in the gradual heating technique; thermal expansion 1.4% in the fast heating technique, 0.8% in the gradual heating technique; compressive strength 5 N/mm²; mixing ratio 100g : 22ml

Packing: Each pack contains 4 x 150g or 10 x 60g bags of powder. Each liquid bottle contains 900ml.

Powder (100 x 60g)	GCD27710	£139.95
Powder (40 x 150g)	GCD27711	£145.95
Liquid (900ml)	GCD27712	£24.95

Fujivest Super Investment Material
GC Dental

Carbon-free phosphate-bonded investment for precision castings of precious, semi-precious and Pd-base alloys, with special attention to complicated implant castings. GC Fujivest Super can be used in both quick heating and slow heating procedures.

- Carbon-Free
- Quick Heat Method
- Total Expansion up to 2.34 %
- High fluidity and high wettability therefore excellent reproduction of details
- Creamy consistency therefore Easy to handle
- Controlled setting and thermal expansion, therefore High precision fit
- Easy de-vesting
- Precise depiction therefore exact surface reproduction & Precise castings
- Economical
- Special high expansion liquid

Physical Data: at room temperature of 23 °C and 100 % mixing liquid: processing time approx. 6 min; setting expansion approx. 2.3 %; thermal expansion approx. 1.0 %; mixing ratio 100g : 22ml.

Packing: Each pack contains 100 x 60g or 40 x 100g bags of powder. Each bottle of liquid contains 900ml

Powder (100 x 60g)	GCD27720	£129.95
Powder (40 x 150g)	GCD27721	£129.95
Liquid High Expansion (900ml)	GCD27722	£23.95
Liquid Standard Expansion (900ml)	GCD27723	£23.95

Powder; C4 (90g)	MRD27651	£17.45
Powder; D2 (90g)	MRD27652	£17.45
Powder; D3 (90g)	MRD27653	£17.45
Powder; D4 (90g)	MRD27654	£17.45
Universal Monomer (500ml)	MRD27570	£20.95
Universal Monomer (1 litre)	MRD27572	£26.75
Universal Monomer (5 litre)	MRD27574	£69.75

Meadway Heat Cure Dentine Kit MR Dental

Meadway Heat Cure Dentine Kit.

Packing: Each kit contains 6 x 30g Heat Cure Powder (A2, A3, A3.5, B2, C3, D3) + 125ml Universal Heat Cure Liquid + 4 Shaders (Brown, Grey, Ochre & White)

Kit (6 x 30g + 125ml + 4 Shaders) MRD27670 £68.95

Cleaning Solvent Sprays

Orange Solvent Spray Hager & Werken

Cleaning solution for the removal of impression pastes, zinc oxide cements, dispersion adhesive from instruments and hands.

- Ideal for the cleaning of stainless steel
- Non-toxic product on the basis of natural orange oil
- Surfaces become shiny and are protected once used
- Fresh Orange scent

Packing: Each can contains 200ml.

Solvent Spray (200ml) HAW12194 **£8.95**

Pegasus Universal Orange Solvent Spray Astek Innovations

Universal Orange solvent Spray aids cleaning and removal of adhesive and alginate from re-usable impression trays.

Packing: Each can contains 200ml.

Solvent Spray (200ml) PEG12193 **£5.25**

Articulators

Plastic Articulators (Pocket Type) Novah Enterprises

Pocket Type plastic articulators for connection to the die cast twin-tray model systems or other die cast tray systems with similar connection points.

- Easy to use
- Functional
- Cost effective and economical.

Colour: Black

Packing: Each pack contains 100 pieces.

Articulators (100pcs) NOV27220 **£18.75**

Plastic Articulators (Flat Type) Novah Enterprises

Flat Type plastic articulators for connection to precast gypsum models. Use very low viscosity Cyanoacrylate adhesives for connecting to precast gypsum models.

- Easy to use.
- Functional
- Cost effective and economical.

Colour: Black

Packing: Each pack contains 100 pieces.

Articulators (1 x 100pcs) NOV27230 **£17.50**

Adhesives

Procure Cyanoacrylate Adhesive Novah Enterprises

Procure adhesive is a high performance medium viscosity modified Etyl Cyanoacrylate adhesive for fixing precast gypsum models to plastic articulator (articulation) where a fast cure speed is required. It can also be used for Margin sealing (Harden and strengthen surfaces and edges of Gypsum dies and occluding definitions) and Peripheral lines which can also be 'fixed' with Procure. The Activator is used to speed-up bonding process and debonder can be used to remove cured adhesive.

For Articulation; Lightly spray adjoining surfaces with activator and close parts together and run Procure adhesive between.

- Easy to use
- Fast setting
- High strength
- Cost effective and economical.

Colour: Clear

Packing: Each bottle of Adhesive contains 20g. Each spray can of Activator contains 200ml and each bottle of debonder contains 20ml.

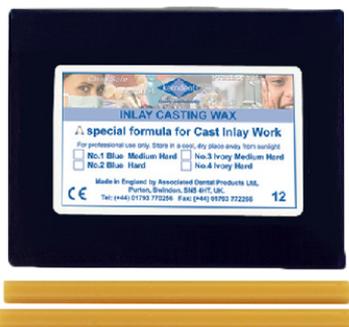

Adhesive PC24 (20g)	NOV27231	£2.95
Activator PC790 (200ml)	NOV27232	£6.95
Debonding PC68 (20ml)	NOV27233	£3.55

Wax

Inlay Casting Wax Nr 3

Associated Dental Products

Kemdent inlay casting wax is a blend of paraffin waxes with beeswax and gum damar to give a tough, smooth wax resistant to flaking and cracking. Used for waxing up acrylic crowns and for the diagnostic wax-up of crowns, It enables an accurate fit to the prepared cavity. Available in medium hard.

- Will not deform at mouth temperature yet softens easily over a bunsen flame leaving a shining finish and allows for delicate carving.

Size: Hexagonal sticks (77mm x 6mm)

Colour: Ivory

Packing: Each box contains 12 sticks.

Ivory; Medium Hard (12 pieces) KEM27373 £4.95

Wax Carving Blocks

Associated Dental Products

Small wax carving blocks, specially developed for technicians. Suitable for tooth modelling and carving other small models.

Size: 13.5mm x 13.5mm x 33.0mm

Colour: Yellow

Packing: Each box contains 30 blocks.

Carving Blocks (30 pieces) KEM27381 £10.95

Perfect Dipping Wax

Novah Enterprises

High precision dipping wax. Dimensionally stable, hardens rapidly with no formation of drops or thin edges.

Colour: Blue, Yellow & Red

Packing: Each box contains 350g

Blue (350g)	NOV27351	£29.95
Yellow (350g)	NOV27361	£29.95
Red (350g)	NOV27371	£29.95

Die Cast Twin-Tray Model System

**NEW
IMPROVED**

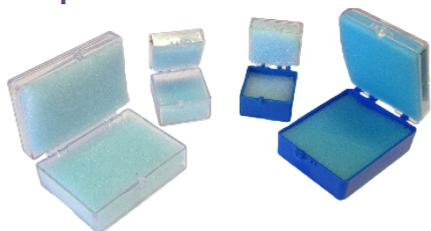

Simplifying the production of models from either "dual-arch" or "single-arch" operations.

- Only one pour per arch
- Simultaneously pour & articulate
- Arches articulate exactly as registered.
- Clean & Professional appearance
- Open Tray Design
- Cost effective

**See Page 55
for details**

Presentation Boxes

Crown & Bridge Veneer Boxes Novah Enterprises

Crown & Bridge Veneer presentation boxes with clear plastic lids and clear or blue bases, hinged with clip clasp and pre-inserted foam fillers. Used for safe transportation and presentation of dental restorations and related items. Available in small and large sizes in standard or economy packs.

Colour: Clear lid with clear base & light blue inserted foams
Clear lid with blue base & light blue inserted forms.

Terms and Conditions of Sale**1 Definitions**

In these Terms and Conditions of business the following meanings shall apply:-
 "the Company" shall mean Lavadent limited of 41 Willoughby Road, London N8 0JG.
 "the Customer" shall mean any person or persons, firm or company who buys or agrees to buy goods from the company.

2 Terms & Conditions Applicable

- 2.1 These terms and conditions shall apply to and govern all contracts for the sale of goods or the supply of services or both entered into by the Company. All conditions of the Customer or other terms and conditions or warranties whatsoever whether communicated before or after these Terms and Conditions are excluded from the contract or any variations thereof unless otherwise expressly accepted by the Company in writing and the Customer's own conditions shall not be regarded as a counter offer.
- 2.2 The exercise by the Company of any right pursuant to these Terms and Conditions shall be without prejudice to any other right available to it whether hereunder or under general law.

3 Representations

- 3.1 The Customer acknowledges that no contract was entered into in reliance on any representation other than those incorporated in these Terms and Conditions.
- 3.2 Unless otherwise specifically stated all prices quoted by the Company are exclusive of Value Added Tax which shall be due at the rate in force on the date of the Company's invoice to the Customer.

4 Delivery

- 4.1 Delivery dates and times specified by the Company are approximate only, unless expressly agreed by the Company in writing, time for delivery is not and shall not be deemed to be of the essence of the contract. The Customer shall make all arrangements necessary to take delivery of goods whenever they are tendered for delivery.
- 4.2 If goods are sold and delivered to the Customer in instalments each delivery shall constitute a separate contract, and failure by the Company to deliver any one or more of the instalments or any claim by the Customer in respect of any one instalments shall not entitle the Customer to treat the contract as whole as repudiated.
- 4.3 If there is not complete satisfaction with any goods received from the Company, the customer may return them for credit, provided that:-
- The items are received in a readily saleable condition within 30 days of delivery to the Customer;
 - The Company is notified of shortages, breakages and goods received in a unusable condition within 3 days of delivery;
 - The goods must be accompanied by the Request for Credit Slip with full details for credit request.

5 Returned Goods

- 5.1 Goods which are not shown in the Company's catalogue in force at the time of order will only be accepted for return and credit by the Company when the Company have given prior authorization. Where authorization is given the Company reserves the right to raise a reasonable cancellation charge.

5.2 Goods which are shown in the Company's catalogue in force at the time of order will be accepted for return only upon the following conditions:-

- Goods must be returned using the return slip printed on the Company's delivery note, and must be accompanied by the Customer number, the number of the invoice upon which the goods were supplied and full details of the reason for return. Goods will not be accepted for return and credit if the original invoice cannot be traced.
 - Goods returned must be in a condition suitable for re-sale, and inclusive of all original packing, operating instructions, guarantee card and accessories.
- 5.3 Goods which are accepted for return will be acknowledged or a credit note will be raised within 10 days of receipt of such goods by the Company. Goods which are damaged or lost in transit will not be credited by the Company as it is the Customer's responsibility to ensure that Goods are adequately packaged and labelled.
- 5.4 Customer request for spares and goods that are ordered by special request or sent direct from suppliers are purchased on non refundable arrangement.

6 The Price and Payment

- 6.1 The price to be paid by the Customer shall be the sum(s) shown by the Company's invoice(s). This price shall be based on the sum quoted to the Customer in the Company's catalogue, but the company reserves the right to amend those prices at any time in its absolute discretion and to correct clerical errors or omissions.
- 6.2 Any orders under the value of £75 a £5.00 postal charge will be applied.
- 6.3 Orders placed with and sent directly from manufacturers will incur a carriage charge invoiced by the Company.
- 6.4 Payment of the price and VAT shall be due within 30 days of the date of the Company's invoice unless different time for payment is specifically agreed between the parties in writing. Time for payment shall be of essence and payment must be made without set-off or credit.
- 6.5 Where goods are delivered in instalments the Company may invoice each instalment separately and the Customer shall pay such invoice in accordance with these Terms and Conditions.
- 6.6 If the Customer is in default in paying any sum as and when it becomes due, the Company shall have the right to suspend all further deliveries until the default is made good and/ or to cancel the contract so far as any goods remain to be delivered there under. Additionally, payment for all goods supplied to the Customer shall become immediately due and owing, whether previously invoiced or not.
- 6.7 In the event that the Customer fails to pay any monies by the due date, the Company shall be entitled to charge interest on the outstanding monies both before and after Judgment from the due date to the date of actual payment at the rate of 2% per month or part month. The Customer shall also indemnify the Company against expenditure on all costs to recovery including without limitation legal fees, cost and disbursements reasonably incurred. Any banking charges incurred by the Company in respect of dishonoured cheques will be payable by the Customer.

7 Title and Risk

- 7.1 The risk in goods sold to the Customer shall pass to the Customer upon tender for delivery so that the Customer is responsible for all loss damage or deterioration of the goods or a part thereof at the time of tender if the Customer wrongfully fails to take delivery of the goods

Or from the time when the same leave the premises of the Company (or the premises where the same stored for or by the Company or to the Customer's order). Where the goods are delivered by the carrier any claim for loss or damage in transit must be made by the Customer against the carrier in accordance with any terms and conditions of business of the carrier.

- 7.2 Title in the goods or any part thereof shall only pass to the Customer when payment in full for all goods whatsoever supplied and all services rendered at any time by the Company has been made.
- 7.3 The Customer shall permit so far as it is able and shall use its best endeavours to assist any officer, employee, representative or agent of the Company to enter onto any premises where the goods may from time to time be situated and to repossess the goods at any time prior to title passing to the Customer and until such time as title passes the Customer shall hold the goods as the Company's fiduciary agent and bailee.

8 Insolvency

- 8.1 If any distress or execution shall be levied on the Customer's property or assets or any part thereof, or if the Customer shall make or offer to make any arrangement or composition with its creditors generally or if the customer:-
 - (a) Being an individual, commits any act of bankruptcy or if any Petition or Receiving Order in Bankruptcy shall be presented or made against him; or
 - (b) Being a partnership, if the said partnership is dissolved for whatever reason or if any partner commits any act of bankruptcy or if any Petition or Receiving Order in Bankruptcy shall be presented or made against any partner or the partnership; or
 - (c) Being a limited company, if proceedings are commenced for the liquidation of the Customers or if a meeting of creditors is called pursuant to section 588 of the Companies Act 1985 or if a resolution is passed for the voluntary winding up of the Customer (other than a member voluntary winding up for the purpose of amalgamation or reconstruction only) or the appointment of an Administrator or if a Receiver is appointed of all or any of the assets of the Customer, or the Customer ceases, or threatens to cease to carry on business then the Company shall have the right forthwith to determine all subsisting contracts whether remaining to be performed in whole or in part by serving written notice of such determination on the Customer, and all monies due to the Company shall become immediately due and payable.

9 Warranty

- 9.1 Subject as expressly provided in these Conditions and except where goods are sold or services provided to person dealing as consumer within the meaning of the Unfair Contract Terms Act 1977 all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permissible by law.
- 9.2 The Customer shall be responsible for ensuring that all Statutory Governmental Regulations, Local Authority Regulations, operating instructions and safety precautions are complied with in relation to goods supplied by the Company.
- 9.3 Equipment and computer products which require installation and warranty/support services thereafter are subject to additional terms and conditions, a copy of which is available upon request from the Company.

10 Restriction of Liability

- 10.1 The Company shall not in any event be liable for indirect or consequential loss or damage, being loss or damage which does not directly and naturally flow from the supply of goods or materials, including without limitation loss of profit, of use, overhead costs, collateral damage or of contract arising out of the supply or failure of supply of goods or services by the Company (other than liability for death or personal injury resulting from negligence of the Company) and whether arising from breach of contract, negligence or for any other liability however arising, whether by statute or otherwise.
- 10.2 In all other cases (being cases of direct and natural losses or damage) it is specifically provided and agreed that compensation and damages payable under any claim or claims arising out of the contract between the parties under whatsoever pretext shall not under any circumstances amount in aggregate to more than the contract price or the goods and/or services forming the subject of claim or claims.
- 10.3 No liability for such direct losses shall attach to the Company unless details of such losses are notified to the Company in writing within 7 days of the date of delivery of the goods, or the date of the event giving rise to such loss if it is not apparent upon the date of delivery. In cases of alleged non-delivery, shortage or breakage, claims must be notified to the Company within 3 days of dispatch of the goods by the Company.
- 10.4 For the avoidance of doubt, nothing in this agreement shall confer on any third party any benefit or the right to enforce any term of this agreement.

11 Applicable Law

These Terms and Conditions and the rights and obligations of the parties to the contract shall be governed, interpreted and construed solely in accordance with the Laws of England.
